

# After School Clubs

For K - 8th Graders

Sponsored by the Old Tappan PTO

## WINTER SESSION

February 2 – March 20, 2015\*  
(No Classes the Week of February 16<sup>th</sup>)

**Club Registration is entirely ONLINE!**

**[www.OTPTO.org](http://www.OTPTO.org)**

- **NEW THIS YEAR:** INTERNATIONAL DANCE HAS BEEN ADDED AS A CLUB! (Fee will cover costumes and other club incidentals.)
- Registration for the WINTER SESSION will be available online Wednesday, January 21<sup>st</sup> thru Tuesday, January 27<sup>th</sup> at noon. *No registrations will be accepted after this deadline. (NOTE: Ivy Academy and Mad Science will do registration on their own website – registration is currently OPEN.)*
- Most clubs have size limitations and will fill quickly, so register early to avoid any disappointment!
- Clubs will begin Monday, February 2, 2015, \*All clubs will run for six weeks, with the exception of Ivy Academy Classes and International Dance.
- **Please Note:** No clubs will run the week of February 16<sup>th</sup> due to February break.
- TBD After-care students go to the after-care program, and the after-staff will take them to their club. (Make sure to advise after-care of club details.) The club instructor will return the child to after-care once club is over.

- PLEASE SEND A NOTE TO SCHOOL WITH YOUR CHILD TO ADVISE YOUR CHILD'S TEACHER THAT THE STUDENT WILL BE ATTENDING AN AFTER-SCHOOL CLUB.

## **After School Club Registration Information & Participation Guidelines**

### **\* Registration**

Please carefully complete ALL registration fields online. If your application is accepted online, that is your confirmation that your child is enrolled in that club. Please mark your calendar accordingly for club dates! You will **ONLY** be notified if there is insufficient enrollment and an alternate club may need to be selected.

### **\* Fees**

The fees for all clubs are indicated next to the club descriptions and include any materials fees. Payment must be by credit card online at the time of registration in order to secure a spot for your child(ren) in any club. If you cannot pay by credit card, please email Melissa Del Rosso at [Melissa\\_DelRosso@yahoo.com](mailto:Melissa_DelRosso@yahoo.com). (If you are signing up for Ivy Academy or Mad Science, please contact them directly.)

### **\* Refunds/Cancellations**

Clubs with insufficient enrollment may not run. You will be notified if an alternate club must be selected. Any price differences will be addressed and if necessary refunds will be provided.

If school is cancelled or closed for inclement weather, or any other reason, clubs will not meet and the session will be rescheduled at the discretion of the teacher.

Withdrawal requests must be received prior to the start of the club. No refunds will be issued after the first week. Club sessions cannot be made up and no refunds will be issued for absences.

### **\* Behavior**

Unruly or inappropriate behavior by your child(ren) may result in their elimination from the club and no refund will be issued.

### **\* Pick Up**

STUDENTS MUST BE PICKED UP PROMPTLY AT THE END OF THE CLUB MEETING- 4:00 pm sharp! This is a safety issue! There will be no supervision after that time. Late pick up may result in the elimination of your child(ren) from the club. AFTER-CARE students will be returned to the after-care program by the club instructor.

If you have a child in a outside vendor club (Mad Science, Abrakadoodle, Ivy Academy) please be sure to follow their guidelines for pick-up. Most will NOT ALLOW you to pick-up through pick-up line, but come in to pick up your child.

**AFTER SCHOOL CLUBS - WINTER SESSION 2015**

# SUPER POWERED SUB-ATOMIC SCIENCE!

## Radical Robotics!

Children become wrapped up in the world of robotics! Volunteers act out a robot, remote control device and an automaton. Children control an automaton through sound and make a soccer robot score a goal! They build their own **Robot Hand**—a human-like end effector.

## Super Power Sources

How do we make electricity? Children explore renewable and non-renewable resources for power generation. They use mechanical force to turn on fans, and find out what makes a battery work. The **Crank'n Shine** gives children a chance to generate light!

## Life In The Sea

The ocean holds many mysteries. Children learn about its diverse life forms—from plankton to whales! They discover underwater habitats, and learn how humans can help protect ocean life. The **Anaglyph Sea Puzzle** lets children dive in and take the ocean home.

## Energy Burst!

Children explore the energy of motion. They pop, jump and flip with hopping, swimming and swinging toys. They check out the kinetic energy in rubber, band-wound gadgets and reach their potential with the **Catapult Take-Home**.

## Get Connected

Let's talk about telecommunications! Children chat over cables, link to a network and work with radio signals. Children wind through a cell tower relay and track cell phone users. They bring home the **Wired World**, an optical fiber telecommunications model.

## Mix It Up

It's time to shake up solutions and explore mixture chemistry. Children sort out mixtures, clear color from a watery solution and see how useful a suspension can be. The **Super Sorter** gives children the tools to sort mixtures at home.

## Moving Motion

Children catapult into Newton's three laws of motion! They yank a cloth from under dishes, send crash test dummies flying and launch mini-rockets across the room. They see action-reaction forces at work with the twirling **Newton Spinner Take-Home**.

## All About Animals

What is an animal? Children explore the animal kingdom and learn about the habitats, adaptations and life cycles of their favorite creatures. They experiment with animal calls and camouflage, and create their own **Animal Tracks** to take home.

**Log on to Register! - [northeastnj.madscience.org](http://northeastnj.madscience.org)**  
**Registration will only be accepted on-line, if you require assistance please call 201-236-1400**

Dear Parents,

Our School has made arrangements with Mad Science, an enrichment organization, to provide an **ALL NEW** after-school science programs at Old Tappan Elementary, starting February 2015. In the Mad Science club, students are introduced to science using a hands-on inquiry-based approach in a fun and entertaining way. The cost is \$110 per child for 6 sessions which includes all materials and an awesome take-home item *EVERY* week! Please see reverse side for a detailed program summary and registration.

The club will meet one hour weekly, for 6 weeks. Class size will range from a minimum of thirteen to a maximum of twenty children. Enrollment is open to grades 1-5 and is offered strictly on a first-come, first-serve basis. ***Please look at the days and dates carefully, as there are no makeup classes for individual absences. Makeup classes will only be scheduled for cancelled classes.***

**Enrollment is open to grades 1 - 5 and is on a first-come, first-served basis. Sessions fill up quickly so be sure to REGISTER YOUR CHILD ONLINE AS SOON AS POSSIBLE!!**

Please note that you are to pick up your child **from** the designated door at the end of each session – children will not be released without parent/guardian.

**Classes will meet on Thursdays from 3:05 PM to 4:05 PM.**  
**Session begins February 5<sup>th</sup>, 2015** with subsequent classes will take place on the same day/time on:  
**2/12, 2/26, 3/5, 3/12, 3/19** barring no cancellations.  
**NO CLASSES ON 2/19/14**

Registration will be handled directly by Mad Science of Northeast NJ's **ONLINE WEBSITE** on a first-come, first-serve basis. Please log on to [northeastnj.madscience.org](http://northeastnj.madscience.org) to register for the After School Program!

# HEY KIDS. . . Don't Miss Out On Building Video Games Right Here @ T. Baldwin!

Less than two weeks from now, your **3rd-5th Grader** is set to have *Real* hands-on fun developing their own classic, adventure-style video games when they join us for our *GameMakers: Classic Adventure* lab program, right here at T. Baldwin Demarest.

Using the age-appropriate *Scratch* programming language created at the cutting-edge MIT Media Lab, your child will move from passively playing games to an active, engaged creator of games of their own!

## Lab Details

### **When:**

Monday afternoons: Feb. 2-March 23  
(no lab 2/16)

### **Time**

Tue. 3:00 pm- 4:10pm

### **Location:**

Right Here at T. Baldwin Demarest

### **Lab Size:**

Limited to 12 students (minimum 6)

**For Registration & Lab Information Visit**

[www.littleivyacademy.com/tbaldwindemarest.html](http://www.littleivyacademy.com/tbaldwindemarest.html)

Each of our project-based **GameMakers!** lab courses call upon your child's imagination, nurturing their emerging critical-thinking and organizational skills, as well as their reading, writing and *STEM* (Science, Technology, Engineering & Math) skills, as they bring new characters to life, crafting functional plots and environments for game-play, all while designing and programming their own basic video games!

## Little Ivy Academy

Year-Round Enrichment for the 21st Century  
Exclusively for Kindergarteners- 8th Graders

[www.littleivyacademy.com](http://www.littleivyacademy.com) | 201-444-8400

**Don't Miss Out**

**THE ROBOTS ARE COMING to T. Baldwin!**

Adventure awaits for your child, *less than two weeks from now* when they put *Real Fun & Real Learning* into action, making arms move, gears turn and wheels spin, building and programming their very own robotic creations in our hands-on *RealScience: The Robots Are Coming!!!*

**Robots in Motion**

***1st-3rd Graders***

**When:**

Thursday afternoons, Feb.5-Nov.18

**Time & Location:**

(1st-3rd grade) Thu.3:00 pm-4:10 pm,  
*Right Here at T. Baldwin Demarest*

**Lab Size:**

Limited to 10 students (minimum 6)

**For Registration Information & Lab Descriptions Visit:**  
[www.littleivyacademy.com/tbaldwindemarest.html](http://www.littleivyacademy.com/tbaldwindemarest.html)

Each of our *STEM*-based (Science, Technology, Engineering & Math) *RealScience: The Robots Are Coming!!!* enrichment labs combine LEGOs, additional materials and a set of programming languages created especially for elementary & middle school-age children, providing your child with engaging, hands on, opportunities to develop their essential 21st-Century *STEM* and critical-thinking skills— *Real Discovery & Real Fun!*.
